It is very good to see that Club members are becoming involved in more events spread over the country...and quite amazing to think that from very small beginnings at the Yeovil Festival of Transport on 1978 (3 people to be precise, worried about keeping their vehicles on the road) we have now reached a membership of 600 world wide. Naturally this number will drop a little at the time for renewals...which starts about now!...but the trend upwards seems likely to continue.

PLEASE return the Renewal Form as soon as possible.....and PLEASE allow the hardworking Membership Secretary time to deal with the onslaught of mail. It just can't be done overnight!
